BEACH ENCLAVE

LEEWARD ESTATES, PROVIDENCIALES, TURKS AND CAICOS

A collection of ultra-private, villa-led beachfront enclaves across Providenciales in Turks and Caicos, designed around exclusivity, space, and fully serviced residential living. Accommodation consists of gated villas and beach houses, typically multi-bedroom and architecturally contemporary, with expansive indoor-outdoor layouts, private infinity pools, and direct access to some of the island's most secluded stretches of sand including Grace Bay, Long Bay, and North Shore. The experience is highly personalised, with dedicated butlers, private chefs, and concierge teams ensuring a seamless stay from arrival to departure. The atmosphere is quiet and low-density, with resort-level services delivered in a private home setting rather than a traditional hotel format. Best for high-end families, groups, or multi-generational travellers seeking maximum privacy, space, and a fully serviced villa experience in Turks and Caicos.
