FORT YOUNG HOTEL & DIVE RESORT

DOMINICA

A historic waterfront hotel in Roseau, Dominica combining heritage architecture with a full-service dive resort concept, positioned directly on the Caribbean Sea with immediate access to the island's capital and marine activities. Accommodation is modern and comfortable, with ocean-facing rooms and suites offering the strongest appeal for outlook, though views can occasionally be impacted by visiting cruise ships. The atmosphere is functional and activity-driven rather than secluded, with a strong emphasis on diving, excursions, and access to Dominica's rainforest and waterfalls. Facilities include multiple dining and bar options, a spa, pool, and a highly active on-site dive centre offering direct access to wall dives, snorkelling, and marine safaris. Service is friendly but variable depending on season and demand. Best for clients seeking a well-located, practical base in Dominica with strong diving credentials and easy access to both land and sea experiences rather than a traditional luxury beach resort.
