JUNGLE BEACH BY UGA ESCAPES

TRINCOMALEE, SRI LANKA

Jungle-framed coastal retreat on Sri Lanka's east coast near Trincomalee, blending beach and mangrove environments into a single, immersive setting. Accommodation is in standalone cabanas elevated within dense greenery, with private terraces, open layouts, and outdoor rain showers designed to keep guests closely connected to nature. The atmosphere shifts between jungle seclusion and direct access to a quiet stretch of beach, with a strong focus on privacy and slow-paced living. Dining is informal and destination-led, supported by a small spa and nature-based excursions including snorkelling, dolphin and whale watching. Service is attentive, relaxed, and unintrusive. Best for couples and nature-focused travellers seeking a low-density, design-led stay with strong coastal wilderness character and a slower rhythm away from busier Sri Lankan beach hubs.
