

LEOPARD TRAILS YALA

YALA, SRI LANKA

Luxury tented safari camp on the edge of Yala National Park offering a refined take on classic bush camping with a strong focus on guiding and wildlife immersion. Accommodation is in spacious canvas tents with en-suite bathrooms, air-conditioning, and private verandas, with higher-category tents adding outdoor showers or enhanced space for added comfort. The experience is structured around expertly led game drives into Yala, home to one of the highest densities of leopards in the world, alongside elephants, sloth bears, and rich birdlife. Days follow a safari rhythm with early and late drives, returning to camp for relaxed downtime around the fire. Dining is simple but well-executed, with a focus on Sri Lankan cuisine and communal, lantern-lit settings. Service is knowledgeable, attentive, and highly personalised through experienced safari guides. Best for clients seeking a comfortable yet authentic safari base in Sri Lanka with strong leopard-spotting potential and an immersive wilderness feel.
