## MOUNT CINNAMON BEACH & WELLNESS RESORT

### SAINT GEORGE, GRENADA

Hillside boutique resort overlooking Grand Anse Beach in Grenada, combining residential-style suites and villas with a relaxed, wellness-led approach to Caribbean living. Accommodation is spread across the hillside and gardens, with one- to three-bedroom suites and villas offering spacious layouts, full kitchens, and private terraces designed for longer stays and family flexibility. The beach club sits directly on Grand Anse Beach, accessed via a short walk or shuttle, offering loungers, watersports, and casual dining in a more laid-back setting than the main hillside area. The atmosphere is easygoing and unpretentious, with yoga, spa treatments, and a small pool area supporting a slower pace rather than structured resort programming. Service is warm, personal, and informal. Best for couples and families seeking a relaxed Grenada stay with strong beach access, good space, and a more residential feel rather than full-scale resort formality.
